**PUSH PULL TURN**  
**DOOR LOCKS**

## A NEW WAY TO OPEN YOUR DOOR

New Push Pull Turn door locks from LokRite make opening doors easier whether your hands are full or free. A tug with a single finger, or a quick bump with an elbow or hip, can open interior or exterior doors more easily, without setting down groceries, children, or mobile phones.

Push Pull Turn door locks, the only locks that open 3 ways.

**PUSH IT. PULL IT. TURN IT.**

## FEATURES & BENEFITS

Features innovative, new Push Pull Turn technology - the hands-free way to open a door • Latch bolt operated by pushing on outside handle or by pulling or turning the inside knob • Handle and knob are always free • Deadbolt operated by key outside and thumbturn inside • Meets ANSI Grade 2 standards • Works on in-swinging doors only • Simple to install with only a Phillips screwdriver
